

Witherby Digital launches new eBook App and website.

Witherby Digital has launched their new iPad app and website www.witherby-tablets.com, which allows many of the world's leading maritime publications and regulations to be downloaded and viewed on an iPad.

Maritime eBooks have been available since 2001 for installations on Windows PCs via Witherby Digital popular 'Witherby eBook reader' software. Users can now opt for the additional flexibility of purchasing and viewing their eBooks via their iPad.

IT Director Johan Machtelinckx said "Migrating our technology from Microsoft.net to the iPad has not been without its challenges, but we are pleased to complete a user interface that uses a similar look and feel to that which we initially developed 12 years ago for Windows based eBook systems".

For the first time, industry titles such as Ballast Water Management, SOLAS, MARPOL, The IAMSAR Manual and The GMDSS Handbook can be accessed on the iPad along with many of the world's other marine technical and regulatory publications.

The free App is available from the Apple App store [here](#) and the eBooks are available to purchase from www.witherby-tablets.com

Get started in 3 easy steps:

- 1) Download the free '[Witherby Reader](#)' App on the App store
- 2) Go to www.witherby-tablets.com, purchase the eBooks you want, take a note of your unique iPad licence code.
- 3) Open the App, enter your licence code and start reading your eBook!
